The Solution:

Proxim's wireless solutions can be effortlessly deployed by Carriers, WISPs and enterprises avoiding hassles of unexpected link failures or exhausting maintenance procedures which are common to copper/fiber networks. Proxim's backhaul and last mile solutions not only accommodate the latest applications involving high speed mobile data, VoIP, and IP video but also add more capacity for legacy voice and data applications. To summarize, Proxim's wireless solutions helps ISP's and Carriers scale effortlessly and cost-effectively in no time.
