**Security College US chooses Proxim Wireless Tsunami® 820
for Training Courses**

Silicon Valley, CA, March 9, 2015 – [Proxim Wireless Corporation](#) (OTC Markets: PRXM), a pioneer and global leader in advanced Wi-Fi, point to point (PtP) and point to multipoint (PtMP) radio systems, today announced that Security College US selected Proxim’s fully featured Tsunami® 820 point to point wireless solutions for its wireless security training programs.

Established in 2008, Security College US is a recognized educational institution in the International Security Industry, offering online and onsite training to law enforcement agencies, first responders, and public safety teams in areas such as homeland security, counter terrorism, physical and electronic security, and more.

Embracing the growing demand for wireless surveillance, Security College US decided to incorporate wireless telecommunications in its curriculum and chose the Tsunami 820 point to point wireless solution for all its ‘hands on’ laboratory training sessions. Prior to selecting Proxim, the college evaluated a number of wireless solutions in the market, said Mr. Arturo Grandon, CEO & Director of Security College US.

“The Tsunami product line simply outperformed. We chose Proxim’s Tsunami 820 solutions because of their superior QoS (Quality of Service), low latency, high efficiency, and advanced RF management features,” said Mr. Hector Porras, Academic Director of Security College US and a SONY engineer. Mr. Porras continued, “Using Tsunami 820 point to point products, we will be demonstrating how high performance wireless solutions can reliably support Sony’s latest imaging technology at 60 frames per second and with full high-definition (1080p) resolution.”

Tsunami 820 point to point wireless solutions offer unparalleled performance by harnessing the advantages of MIMO, OFDM, and the WORP® advanced MAC protocol. Moreover, WORP offers a full suite of performance features such as asymmetric bandwidth control, IGMP Snooping and interference mitigation features, to deliver exceptionally high system throughputs with minimal latency, jitter, and packet loss.

“It’s extremely satisfying to see the Tsunami 820 product line as a preferred choice of security engineers and analysts,” said Greg Marzullo, President and CEO of Proxim Wireless. “We’re proud to be included as a pivotal tool in Security College US’ training programs.”

About Proxim Wireless

Proxim Wireless Corporation (OTC Markets: PRXM) provides [Wi-Fi®](#), [Point-to-Point](#) and [Point-to-Multipoint](#) 4G wireless network technologies for wireless internet, video surveillance and backhaul applications. Our

[ORiNOCO®](#) and [Tsunami®](#) product lines are sold to service providers, governments and enterprises with over 2 million devices shipped to 250,000+ customers in more than 65 countries worldwide. Proxim is ISO 9001:2008 certified. For more information, visit www.proxim.com. For investor relations information, e-mail ir@proxim.com or call +1 413-584-1425.

Safe Harbor Statement

Statements in this press release that are not statements of historical facts are forward-looking statements that involve risks, uncertainties, and assumptions. Our actual results may differ materially from the results anticipated in these forward-looking statements. The forward-looking statements involve risks and uncertainties that could contribute to such differences including difficulties in overcoming the network installation and operational challenges relating to any specific customer or geographical area; factors beyond our control such as weather, geographic, governmental, and interference issues that may increase the costs and difficulties of wireless deployments; specific requirements of a given customer in their specific situations; whether the deployment will achieve the desired objectives of any given customer; and difficulties or delays in supplying products with the features, performance, compliances, certifications, cost, price, quality, and other characteristics desired by customers. Further information on these and other factors that could affect Proxim's actual results is contained in the filings made by Proxim with the OTC Markets (available at www.otcmarkets.com), including without limitation in the Annual Report filed by Proxim on March 30, 2010, and is and will be contained in its other public statements, which may be available on Proxim's website (www.proxim.com).
