Shangri-la's Far Eastern Plaza Hotel, Taipei Chooses Proxim Wireless ORiNOCO® Wi-Fi Solution to Provide Hotel-Wide Wireless Internet Access

San Jose, CA, June 13, 2007 – Proxim Wireless Corporation, a global pioneer of end-to-end solutions in Wi-Fi mesh, WiMAX, MeshMAX™, WLAN, and wireless backhaul and wholly owned subsidiary of Terabeam, Inc. (NASDAQ: TRBM), today announced that Shangri-la’s Far Eastern Plaza Hotel, Taipei has deployed Proxim's ORiNOCO® AP-4000 Series of Wi-Fi Access Point products to provide ubiquitous high-speed wireless Internet access to its 420 guest rooms and suites. WiTak Technology Co. Ltd., a wireless systems integrator and a Proxim Wireless partner, assisted the hotel in network design and deployment.

Proxim's ORiNOCO AP-4000 Series of products are well suited for large Wi-Fi deployments. Supporting enterprise voice and video applications, the AP-4000 Series delivers enterprise-scale security, management, and QoS features. These features enable best-in-class performance and flexibility in large Wi-Fi deployments. To manage the network of more than 300 individual access points, the hotel is using ProximVision™, Proxim's wireless network management system. ProximVision includes an integrated, easy-to-use console that allows the hotel to monitor network performance from a centralized location.

"To provide our hotel guests with the best in amenities, it was imperative that we make Wi-Fi access available to all guest rooms," said Mr. Richard Lin, IT Manager, Shangri-la's Far Eastern Plaza Hotel, Taipei. "Our Proxim-based Wi-Fi network also helps keep us competitive in attracting guests to our hotel, extending their stays, and generating repeat business."

"We are honored that Shangri-la’s Far Eastern Plaza Hotel, Taipei has chosen our Wi-Fi products to give their guests and visitors access to the world wide web in and around the hotel," said Joshua Chao, Vice President, Sales – Asia Pacific, Proxim International. "Now completed, the Wi-Fi network supporting Shangri-la's Far Eastern Plaza Hotel, Taipei serves as a blueprint for hotels, offices, and other large buildings requiring high performance, reliable wireless networks."

About Proxim Wireless

Proxim Wireless Corporation is a wholly owned subsidiary of Terabeam, Inc. (NASDAQ: TRBM). Safe Harbor Statement

Statements in this press release that are not statements of historical facts are forward-looking statements that involve risks, uncertainties, and assumptions. Our actual results may differ materially from the results anticipated in these forward-looking statements. The forward-looking statements involve risks and uncertainties that could contribute to such differences including those relating to difficulties in overcoming the network installation and operational challenges relating to any specific customer; factors beyond our control such as weather, geographic, and interference issues; and difficulties or delays in supplying products with the features, performance, compliances, certifications, cost, price, and other characteristics desired by customers. Further information on these and other factors that could affect our actual results is and will be included in filings made by Terabeam from time to time with the Securities and Exchange Commission and in our other public statements.
