Proxim Receives Network Products Guide 2008 Product Innovation Award

Proxim's QuickBridge 60250 Named Winner in the Millimeter Wave Radio Category

SAN JOSE, CA, Jun 09, 2008 (MARKET WIRE via COMTEX News Network) -- Proxim Wireless Corporation (NASDAQ: PRXM), a leader in core-to-client solutions for broadband wireless networks, today announced that Network Products Guide, a Silicon Valley Communications publication and a leading publicatin on technologies and solutions, has named the Proxim QuickBridge 60250 point-to-point wireless bridge a winner of the 2008 Product Innovation Award. This annual award recognizes and honors vendors from all over the world with innovative and ground-breaking products that are bringing essential and incremental changes and are setting the bar higher for others in all areas of information technology.

Proxim's QuickBridge 60250 is a point-to-point wireless hop-in-a-box that provides 250 Mbps of capacity in the 60 GHz unlicensed spectrum. The QuickBridge 60250's small form factor, alignment bracket and alignment scope make it easy to deploy and install. The QuickBridge 60250 is therefore well suited to not only network operator, enterprise and municipal applications but also for rapid construction of temporary networks for special events and when responding to disasters. Its low power consumption enables use of alternate power sources, such as solar power. The QuickBridge 60250 offers very low latency, making it ideal for voice and video applications. "The goal of any product innovation must always remain a positive change, making or improving solutions better than before," says Rake Narang, editor-in-chief, Network Products Guide. "Innovative products such as the QuickBridge 60250 are bringing improvements for the rapid deployment of high-performance wireless broadband networks."

"Network Products Guide's recognition of our QuickBridge 60250 solution is yet another validation of Proxim's investment in the point-to-point carrier and enterprise market," said Geoffrey Smith, Vice President of Marketing and Business Development at Proxim Wireless. "Proxim has a long history of innovation in wireless broadband, and this award illustrates our continued commitment to staying ahead of the market."

About Network Products Guide Awards

Network Products Guide published from Silicon Valley is a leading provider of products, technologies and vendor related research and analysis. You will discover a wealth of information in this guide including product innovations, roadmaps, industry directions, technology advancements and independent product evaluations that facilitate in making the most pertinent technology decisions impacting business and personal goals. The guide follows conscientious research methodologies developed and enhanced by industry experts. To learn more, visit www.networkproductsguide.com.
