Proxim Wireless Demonstrates 4.9GHz Radio for Security and Surveillance at Futurecom 2009 in Brazil

Proxim Is First to Achieve 4.9GHz PtP and PtMP Radio Certification in Brazil; Come Visit Proxim at Booth B4 With Seal Telecom

SAO PAULO, BRAZIL, Oct 13, 2009 (MARKETWIRE via COMTEX News Network) -- Proxim Wireless Corporation (OTCQX: PRXM) (PINKSHEETS: PRXM), a leading provider of end-to-end broadband wireless systems that deliver the quadruple play, today announced that it is providing a live product demonstration focused on wireless video surveillance at the Futurecom 2009 conference in Sao Paulo, Brazil from October 13-16. Also on display will be Proxim's 4G product portfolio focused on service provider, enterprise, and Digital Cities applications.

Proxim's Tsunami(TM) product lines are the first point-to-point (PtP) and point-to-multipoint (PtMP) radios approved to support the 4.9GHz frequency in Brazil. Those products have been deployed around the world to backhaul CCTV cameras in public safety deployments. Proxim's 2.4GHz and 5.15-5.85GHz products have also been deployed in applications, including traffic light synchronization, IPTV, mobile video surveillance, wireless backhaul, public access, broadband wireless access (BWA) and VoIP and are ideal for Digital City projects throughout Brazil.

In addition to frequency band leadership, Proxim's products continue to demonstrate capacity leadership with true 4G wireless products. With the introduction of the Tsunami QB-8100 point-to-point wireless backhaul and MP-8100 point-to-multipoint connectivity products in July, Proxim's products now provide 200Mbps throughput -- up to eight times the capacity of existing WiMAX products -- with non-line-of-sight (NLOS) functionality for even greater VoIP and video application support like HDTV.

About Proxim Wireless

Proxim Wireless Corporation (OTCQX: PRXM) (PINKSHEETS: PRXM) is a leading provider of end-to-end broadband wireless systems that deliver the quadruple play of voice, video, data and mobility to all organizations today. Our systems enable a variety of wireless applications including Point-to-Point wireless backhaul, security and surveillance, VoIP, last mile access, and enterprise LAN connectivity. We have shipped more than 1.8 million wireless devices to more than 235,000 customers in over 65 countries worldwide. Proxim is ISO-9001 certified. Information about Proxim can be found at www.proxim.com. For investor relations information, e-mail ir@proxim.com or call +1 413-584-1425.

Safe Harbor Statement

Statements in this press release that are not statements of historical facts are forward-looking statements that involve risks, uncertainties, and assumptions. Our actual results may differ materially from the results anticipated in these forward-looking statements. The forward-looking statements involve risks and uncertainties that could contribute to such differences including difficulties in overcoming the network installation and operational challenges relating to any specific customer or geographical area; factors beyond our control such as weather, geographic, governmental, and interference issues; specific requirements of a given customer in their specific situations; delays or changes in or cancellation of contemplated product developments or deployments; and difficulties or delays in supplying products with the features, performance, compliances, certifications, cost, price, and other characteristics desired by customers. Further information on these and other factors that could affect Proxim's actual results is contained in the filings made by Proxim with the Securities and Exchange Commission (available at www.sec.gov), including without limitation in the Annual Report on Form 10-K filed by Proxim on March 31, 2009, and will be included in postings made by Proxim from time to time with the OTCQX (www.otcqx.com) and in its other public statements, which may be available on Proxim's website (www.proxim.com).
