Installation Notes:

2. Connect other ends (A & B) of R46 connectors to pole in follow of instructions as shown in the Picture 1.

3. Use SS hose clamp of Dia 2-5" for clamping R46 coupling and other end-B1 is connected to the customer premises.

4. To tighten the caps hand tight is enough.

Refer to Picture 2 to avoid overhanging & stresses on the R46 cable.
