About Proxim Wireless

Proxim Wireless is a pioneer and global leader in advanced Wi-Fi, point to point, and point to multipoint outdoor wireless systems that deliver high performance and high availability communications.

With over 30 years of wireless experience, Proxim is recognized for its unparalleled reliability, superior performance and drive for innovation.

6.4 GHz Wireless Product Family for WISP and Mobility Applications

The Tsunami® MP-8260 series, is the latest in our range of 6.4 GHz point-to-multipoint products. They support a data rate that delivers up to 300 Mbps over a 40 MHz channel. Designed specifically to work with the MP-826-CPE products, the Tsunami® MP-8260 benefits from all features of the latest Tsunami® MultiPoint products but with the benefit of operating in the 6.4 GHz band.

The Tsunami® MP-8260 Base Stations combined with the MP-826-CPE are an ideal solution for large-scale wireless deployments and provide and excellent value propositions to WISPs planning wireless broadband last-mile access deployments.

This platform also features a carrier-grade prioritization platform supporting multiple service classes and able to prioritize voice, video and data applications to enable granular management of customer service features.

High Value, Long Service Life

The combination of high reliability, license-free frequency bands, and guaranteed compatibility with past, current and future Proxim base station models, ensures a long service life, and an excellent return on investment.

• Designed for harsh environments, the Tsunami® MP-8260 series is fully IP67 rated, and will deliver years of reliable service in conditions that include, high winds, high salt, and high temperature range.

Flexible, Fast and Secure

• Designed to deliver up to 300 Mbps of throughput.
• Provides flexible channel planning with support for 5.900 to 6.425 GHz
• Comes with a 2x2 MIMO high power radio capable of 25 dBm transmit power
• Advanced encryption protects over-the-air transmission via AES-128
• Uses Proxim’s Wireless Outdoor Routing Protocol (WORP®) to prevent snooping
• Radio mutual authentication eliminates unauthorized use of the system by rogue subscriber units and man-in-the-middle attacks

Near-Line-of-Sight and Advanced Features

• Features dual Gigabit Ethernet ports with PoE out to power other devices such as surveillance cameras or additional radios
• Performs deep packet inspection (DPI) to create unique and sophisticated service rules and tiered service classes with ease
• BSU redundancy (500 milliseconds switch over time) and Dynamic Channel Selection to ensure continuity of services whatever the condition
• Spectrum analyzer to analyze frequency bands for interference, and select the best available channel

Carrier-Grade Solution

• Implements AES encryption and Radius authentication for the most secure outdoor wireless communications in the unlicensed frequency spectrum
• Utilizes Proxim’s Wireless Outdoor Routing Protocol (WORP®), which prevents snooping, and features highly-secure remote management via SSL/TLS1.2, SSH and SNMPv3
• Features Ethernet ports with pass-through IEEE 1588v2 synchronization and support for 9k Jumbo frame.
Key Technologies

Proxim WORP®
Combines network access control, data scheduling, advanced QoS and encryption to ensure highly efficient and secure data transmission.

Proxim ClearConnect™
A suite of interference mitigation technologies ensuring robust and reliable communications in high-density wireless deployments.

Proxim FastConnect™
Mobility technology that delivers rapid hand-off between fixed base stations and moving vehicles to ensure uninterrupted broadband at speeds up to 295 km/h (185 mph).

Product Line Compatibility
• Connects to Tsunami® MP-8160 (rev 10 or higher) and MP-826 released since Q2 2014
• Fully integrates within ProximVision® Advanced Cloud Based Carrier Management System and Controller

ANTENNA

MP-8260-BSU/SUA
Two N-type Connectors with built-in Surge Protection
Integrated 2x2 MIMO 16dBi Dual Polarized 90 degree Sector Antenna

MANAGEMENT

REMOTE
Telnet and SSH, Web GUI and SSL, TFTP, SNMPv3
SNMP v1-v2c-v3, RFC-1213, RFC-1215, RFC-2790, RFC-2571, RFC-3412, RFC-3414, Private MIIB
Syslog, sFlow* agent, SNTP and local time, Spectrum analyzer
## SYNCHRONIZATION
Pass-through IEEE 1588v2 Ethernet Synchronization

## SECURITY

### ENCRYPTION AUTHENTICATION
AES 128
Internal MAC Address Control List, Radius based Authentication (with VLAN and QoS provisioning)

### QoS
Asymmetric Bandwidth Control
Packet Classification Capabilities
Scheduling
Asymmetric UL/DL committed and maximum information rate per service flow
802.1p priority, IPTOS, VLAN ID, IP addresses, ports, Ethernet addresses, IP protocol, and EtherType

## NETWORK

### MODES
Bridging, Routing (RIP v2 and IP tunneling)
IPv4 and IPv6 simultaneously

### IP STACK
DHCP Server & relay, NAT with Std ALGs, PPPoE end point with Proxy DNS
802.1Q: Management VLAN. Transparent, Access, Trunk and Mixed mode. QinQ double tagging

### Gateway Features

<table>
<thead>
<tr>

### SAFETY STANDARDS
UL 60950, CAN/CSA-C22.2 No. 60950, IEC 60950, EN 60950 (part -1 and -22)

### PACKAGE CONTENTS
- One Tsunami® MP-8260-BSU/SUA with two N-type surge protected connectors
- One Tsunami® MP-8260-BS9 with integrated dual polarized antenna
- One power injector and country specific power cord
- One Connector weatherproofing kit (includes all recommended weatherproofing material)
- One Wall / Pole mounting kit
- One Antenna alignment (RJ11) dongle
- One Grounding kit
- One Quick Installation Guide

### MTBF & WARRANTY
MTBF over 250 000 hours & 2-year warranty with ServPak Extended Support available.
