Fast and Flexible Backhaul Solutions

The Tsunami Quickbridge® 10100 series delivers high bandwidth backhaul with carrier class reliability in even the toughest of conditions.

Perfectly suited for the service provider or enterprise that needs to connect critical applications and services to the data center or the world.

The range of high-power, integrated and external antenna models provide the flexibility to design a backhaul link that will meet the most stringent criteria.

The Tsunami® Quickbridge® 10100 supports the following key features that are critical for carriers, wireless service providers and Government organizations that need to know they can rely on the network.

Rugged and Reliable

Designed for harsh environments, the Tsunami® QuickBridge® 10100 is fully IP67 rated, and will deliver years of reliable service in conditions that include, high winds, high salt, and high temperature extremes.

Highlights

- Service flow based QoS with deep packet inspection (DPI) to ensure that the most important data arrives with priority
- Very low latency enables support for time critical applications
- Operates in unlicensed bands from 4.900 to 5.925 GHz
- Flexible RF planning with 20, 40 and 80 MHz channel size
- Non Line-of-Sight capability provided by Advanced Orthogonal Frequency Division Multiplexing (OFDM) along with 2x2 MIMO eases deployment in challenging areas
- Deployment tools include spectrum analyzer, antenna alignment and remote management configuration
- Fully integrates within ProximVision® Advanced Carrier Management System.

Enabling Technologies

Proxim WORP®

Combines network access control, data scheduling, advanced QoS and encryption to ensure highly efficient and secure data transmission.

Proxim ClearConnect™

A suite of interference mitigation technologies ensuring robust and reliable communications in high-density wireless deployments.

About Proxim Wireless

Proxim Wireless is a pioneer and global leader in advanced Wi-Fi, point to point, and point to multipoint outdoor wireless systems that deliver high performance and high availability communications.

With over 30 years of wireless experience, Proxim is recognized for its unparalleled reliability, superior performance and drive for innovation.
## Specifications

### Product Models

### Antenna

- **QB-10100-EPA**
- **QB-10150-EPR**
- **QB-10150-EPL**

### Management

- **Remote**
- **SNMP**
- **Other**

### Synchronization

- **Pass-through IEEE 1588v2 Ethernet Synchronization**

### Security

- **Encryption**
- **Authentication**

### QoS

- **Asymmetric Bandwidth Control**
- **Packet Classification**
- **Capabilities**
- **Scheduling**

### Network

- **Modes**
- **IP Stack**
- **Gateway Features**
- **VLAN**

### Power Input

- 36 to 57 VDC via Ethernet port (Power over Ethernet)
- 12 VDC via Access port

### Power Output

- 48 to 57 VDC – 25 Watt on Ethernet port2 (PoE – software controlled)
- 12 VDC on Access port

### Power Consumption

- 14 Watt typical, 17.5 Watt maximum

| • One Tsunami® QB-10100-LNK with two N-type surge protected connectors (Two QB-10100-EPA)  
  Or One Tsunami® QB-10150-LNK with integrated 22 dBi dual polarized antenna (Two QB-10150-EPR)  
  Or One Tsunami® QB-10150-LKL with integrated 28 dBi dual polarized antenna (Two QB-10150-EPL)  
  • Two power injector and country specific power cord  
  • Two Connector weatherproofing kit (includes all recommended weatherproofing material)  
  • Two Wall / Pole mounting kit  
  • Two Antenna alignment (RJ11) dongle  
  • Two Grounding kit  
  • Two Quick Installation Guide |
