Proxim Announces the QB-10100 Series of High Capacity Point to Point Products

Delivering high efficiency with over 600 Mbps of useable bandwidth

Silicon Valley, CA, February 8, 2016 – [Proxim Wireless Corporation](#) (OTC Markets: PRXM), a pioneer and global leader in advanced Wi-Fi, point to point (PtP), and point to multipoint (PtMP) wireless systems, is introducing the carrier-class, very high capacity Tsunami Quickbridge® 10100 series of products.

The QB-10100 series represents Proxim’s highest speed PTP products, supporting up to 633 Mbps of data throughput. The useable throughput is achieved with a mere 866 Mbps of RF data rate, delivering an industry-leading 73% efficiency. With the recent release of the QB-835 at the low end of the PTP portfolio, with throughputs as low as 25 Mbps, Proxim has expanded its PTP offerings dramatically.

Supporting 80 MHz channels, the QB-10100 benefits from Proxim ClearConnect™ and Proxim’s advanced built-in spectrum analyzer providing customers the best possible chance of finding a useable 80 MHz channel. As with all Tsunami products, the QB-10100 products are powered by WORP®, Proxim’s proprietary software suite, delivering not only 75% efficiencies but also advanced QoS support for mixed traffic to provide proper prioritization to the voice, video, and other data traffic.

As the highest capacity product in Proxim’s QuickBridge portfolio, the QB-10100 units come in a carrier-class ruggedized outdoor enclosure, with an IP67 rating, and are able to operate in the harshest environments with a -40 to 60 °C temperature range. Carrier-class construction coupled with the high power radio and 2x2 MIMO make these products ideal for near line-of-sight and long range connections.

With the high bandwidth, QoS and RF robustness the QB-10100 products are ideal for small cell backhaul, video surveillance backhaul, enterprise connectivity and video surveillance applications.

“The QB-10100 series of PTP products continues Proxim’s leadership in this market, providing over half a gigabit of useable bandwidth,” said Greg Marzullo, President and CEO of Proxim Wireless. “Our customers rely on our quality, durability and reliability, and the QB-10100 continues that tradition while delivering exceptional throughput.”

About Proxim Wireless

Proxim Wireless Corporation (OTC Markets: PRXM) provides [Wi-Fi®](#), [Point-to-Point](#) and [Point-to-Multipoint](#) 4G wireless network technologies for wireless Internet, video surveillance and backhaul applications. Our [ORiNOCO®](#) and [Tsunami®](#) product lines are sold to service providers, governments and enterprises with over 2.5 million devices shipped to 250,000+ customers in more than 90 countries worldwide. Proxim is ISO 9001:2008 certified. For more information, visit www.proxim.com. For investor relations information, e-mail ir@proxim.com or call +1 413-584-1425.

Safe Harbor Statement

Statements in this press release that are not statements of historical facts are forward-looking statements that involve risks, uncertainties, and assumptions. Our actual results may differ materially from the results anticipated in these forward-looking statements. The forward-looking statements involve risks and uncertainties that could contribute to such differences, including difficulties in overcoming the network installation and operational challenges relating to any specific customer or geographical area; factors beyond our control such as weather, geographic, governmental, and interference issues that may increase the costs and difficulties of wireless deployments; specific requirements of a given customer in their specific situations; whether the deployment will achieve the desired objectives of any given customer; changes in the timing, features, and other characteristics of products Proxim expects to introduce; and difficulties or delays in supplying products with the features, performance, compliances, certifications, cost, price, quality, and other characteristics desired by customers. Further information on these and other factors that could affect Proxim's actual results is contained in the filings made by Proxim with the OTC Markets (available at www.otcmarkets.com), including without limitation in the Annual Report filed by Proxim on March 30, 2010, and is and will be contained in its other public statements, which may be available on Proxim's website (www.proxim.com).
