**Proxim Wireless Announces the Tsunami® 10100L - 400 Mbps
Point to Point and Point to Multipoint Product Line**

Silicon Valley, CA, December 7 , 2016 - Proxim Wireless Corporation (OTC Markets: PRXM), a pioneer and global leader in point to point (PtP) and point to multipoint (PtMP) wireless systems and advanced Wi-Fi, today announced the worldwide availability of its Tsunami® 10100L series supporting up to 400Mbps data rate and upgradeable to 866Mbps.

With the Tsunami 10100L product line, Proxim continues to offer more for less. Operating at 256QAM in a 40Mhz channel, combined with our WORP protocol, means end users will see 300Mbps of useable data in a 40MHz channel. Offered at a price that continues to push the cost/performance metric, the Tsunami 10100L is a leader in the carrier class wireless infrastructure market in \$/bit.

The 10100L is based on the same hardware platform as the Tsunami 10100 series, meaning customers get the features they have come to expect from Proxim – a rugged IP67 design, PoE out, Proxim Clear Connect, Fast Connect and more. The 10100L series includes several product variants including– BSU, SUA, SUR, and QBs. This provides customers with a wide variety of applications and deployment options across the series.

With the ability to software upgrade the 10100L to a full 10100 series, customers can “pay as they grow” by deploying the less expensive 10100L product, and upgrading to the full 866Mbps capacity when needed for a small upgrade fee.

In addition, as always with Proxim products, Proxim maintains two generations of backwards compatibility. This means the 10100L, as well as the 10100, can interoperate with the Tsunami 800 and 8200 series products. Mixed networks are supported allowing existing networks to add the additional capacity supported by the 10k series when needed, or to start with a 10100 BSU and deploy the lower capacity, more cost effective 800 series products as subscriber units.

“The Tsunami® 10100L has been designed for markets that are looking for carrier class communications but with moderate bandwidth requirements. This series makes our high performance solutions now more affordable with no compromises on quality” said Greg Marzullo, CEO and President, Proxim Wireless.

About Proxim Wireless

Proxim Wireless Corporation (OTC Markets: PRXM) provides [Wi-Fi®](#), [Point-to-Point](#) and [Point-to-Multipoint](#) 4G wireless network technologies for wireless Internet, video surveillance and backhaul applications. Our [ORiNOCO®](#) and [Tsunami®](#) product lines are sold to service providers, governments and enterprises with over 2.5 million devices shipped to 250,000+ customers in more than 90 countries worldwide. Proxim is ISO 9001:2008 certified. For more information, visit www.proxim.com. For investor relations information, e-mail ir@proxim.com or call +1(408) 383 7615.

Safe Harbor Statement

Statements in this press release that are not statements of historical facts are forward-looking statements that involve risks, uncertainties, and assumptions. Our actual results may differ materially from the results anticipated in these forward-looking statements. The forward-looking statements involve risks and uncertainties that could contribute to such differences, including difficulties in overcoming the network installation and operational challenges relating to any specific customer or geographical area; factors beyond our control such as weather, geographic, governmental, and interference issues that may increase the costs and difficulties of wireless deployments; specific requirements of a given customer in their specific situations; whether the deployment will achieve the desired objectives of any given customer; changes in the timing, features, and other characteristics of products Proxim expects to introduce; and difficulties or delays in supplying products with the features, performance, compliances, certifications, cost, price, quality, and other characteristics desired by customers. Further information on these and other factors that could affect Proxim's actual results is contained in the filings made by Proxim with the OTC Markets (available at www.otcmarkets.com), including without limitation in the Annual Report filed by Proxim on March 30, 2010, and is and will be contained in its other public statements, which may be available on Proxim's website (www.proxim.com).
