Proxim Wireless Teams Up with ViTEL as Distributor in Turkey, Germany, and Austria

Silicon Valley, CA, September 12, 2017 - Proxim Wireless Corporation (OTC Markets: PRXM), a pioneer and global leader in point to point (PtP) and point to multipoint (PtMP) wireless systems and advanced Wi-Fi, today announced a new distributor partnership with ViTEL. ViTEL is a leading distributor of industrial networking infrastructure in Turkey, Germany, and Austria. ViTEL will assist Proxim in accelerating the adoption of its mission critical carrier class outdoor and indoor wireless solutions and foray into new markets.

This relationship allows both Proxim and ViTEL to leverage their expertise and experience in key markets and applications including Transportation, Renewable Energy, Airport Security, University Campuses, On-Board Applications, and Home Land Security Solutions.

“As applications get more bandwidth hungry and mission critical, high performance wireless networking solutions play a critical part to support these applications. Proxim’s innovations and ViTEL’s team of experts are a perfect combination for these requirements. I am excited and looking forward to this partnership.” - said Dave Sumi, Senior Vice President Marketing Proxim Wireless.

“Proxim offers key parts to our portfolio” said Deniz Eşiyok, CEO ViTEL “Our resellers want to stay competitive and offer high value solutions to their end customers. We see Proxim’s portfolio as the best-fit solution for our partners who can now deliver high performance network infrastructure at a fraction of traditional wireline network costs.”

Proxim offers a range of high performance solutions that are purpose built for mission critical networks and applications. Proxim’s Tsunami® outdoor portfolio offer 650 plus Mbps bandwidth and constitute of both point to point backhaul solutions and point to multipoint broadband solutions. Proxim’s key advantages are its multilayer advanced technology innovations- WORP®, ClearConnect® and FastConnect®. Proxim also offers indoor and outdoor WiFi solutions with the ORiNOCO® Access Point product line and the entire Proxim infrastructure can be controlled and managed by ProximVision® Advanced – Cloud Based Carrier Management System and WLAN Controller platform.

Safe Harbor Statement

Statements in this press release that are not statements of historical facts are forward-looking statements that involve risks, uncertainties, and assumptions. Our actual results may differ materially from the results anticipated in these forward-looking statements. The forward-looking statements involve risks and uncertainties that could contribute to such differences, including difficulties in overcoming the network installation and operational challenges relating to any specific customer or geographical area; factors beyond our control such as weather, geographic, governmental, and interference issues that may increase the costs and difficulties of wireless deployments; specific requirements of a given customer in their specific situations; whether the deployment will achieve the desired objectives of any given customer; changes in the timing, features, and other characteristics of products Proxim expects to introduce; and difficulties or delays in supplying products with the features, performance, compliances, certifications, cost, price, quality, and other characteristics desired by customers. Further information on these and other factors that could affect Proxim's actual results is contained in the filings made by Proxim with the OTC Markets (available at www.otcmarkets.com), including without limitation in the Annual Report filed by Proxim on March 30, 2010, and is and will be contained in its other public statements, which may be available on Proxim's website (www.proxim.com).
