

PICTURE-1

PICTURE-2

Installation Notes:

1. Assemble RJ45 Connectors Ends 'A1' & 'B1' to IP-67 rating RJ45 coupling connector as shown in the picture-1.
2. Connect Other ends ('A' & 'B') of RJ45 connectors to POE-IN follow QIG instructions for proper weather proofing and other end-'B' is connected to the customers Premises
3. Use SS hose clamp of DIA 2" - 5" for clamping IP-67 rating RJ45 coupling connector to pole as shown in the picture-2. To avoid overhanging & stresses on the RJ45 Cable.
4. To tighten the caps hand tight is enough.
